HARNESS THE POWER OF MAXTRAX®

MaxTRAX® is our patented, high-performing outsole, brought to you by our sister brand SR Max®. It achieves some insane grip by channeling liquids away from your feet.

It also blows independent performance tests out of the water—every time. In fact, MaxTRAX® works so well that it's trusted by some of your favorite brands, like Timberland PRO®, SKECHERS, Rockport, Reebok Work and, of course, SR Max®.

**TONS OF STYLES.
SO MUCH COMFORT.
THE ONLY PROBLEM?
WHICH ONES TO CHOOSE.**

POWERED BY

WHY MAXTRAX[®] WORKS SO WELL

The specialized groove design is self-cleaning, which means the bottoms of your shoes stay cleaner longer. *Occasional manual cleaning is still necessary.

MaxTRAX[®] is made from a proprietary flexible, soft rubber compound that grips the ground and helps keep you on your feet.

We bridge world class slip-resistant technology with brands that are known far and wide for exceptional comfort. The result? You get the protection you need alongside all-day wear from the brands you know and trust.
